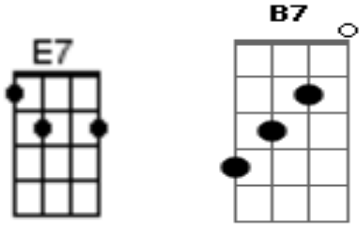
The sun has got his hat on


```
      C                F   /   G7   /  C                D7
The sun has got his hat on          hip hip hip hooray
      G7                                                C  /  G7  /
The sun has got his hat on and he's coming out today
  C                F   /   G7   /  C                D7
Now we'll all be happy,             hip hip hip hooray
      G7                                                C
The sun has got his hat on and he's coming out today

E7
He's been shining all day long
B                E7
out in Timbuctoo
G                    D
Now he's coming back
    D                    G
to do the same for you.

    C                F   /   G7   /  C                D7
So jump into your sunbath,          hip hip hip hooray
      G7                                                C
The sun has got his hat on and he's coming out today
```
