

# She Loves You

Key of Am

Chorus:       Am  
She loves you, yeah, yeah, yeah  
              D7  
She loves you, yeah, yeah, yeah  
              F                               C6  
She loves you, yeah, yeah, yeah

              C                               Am  
You think you've lost your love  
              Em                               G7  
Well I saw her yesterday  
              C                               Am  
It's you she's thinking of  
              Em                               G7  
And she told me what to say  
  
              C  
She says she loves you  
  
  Am  
And you know that can't be bad  
              Fm  
Yes she loves you  
  
  G7  
And you know you should be glad

              C                               Am  
She said you hurt her so  
              Em                               G7  
She almost lost her mind  
              C                               Am  
But now she says she knows  
              Em                               G7  
You're not the hurting kind

              C  
She says she loves you  
  
  Am  
And you know that can't be bad  
              Fm  
Yes she loves you  
  
  G7  
And you know you should be glad

## She Loves You Cont.....

Am

She loves you, yeah, yeah, yeah
